

Quality Record — Batch 4471

Quality · 2025-01 · Issue 1

1. Batch details

Field	Entry
Batch	4471
Product	Classic Sourdough (SD-12)
Mixed	2025-01-14
Inspected by	Quality
Result	Rejected

Batch 4471 was rejected at dough inspection. The finding was dough hydration out of tolerance.

2. Finding

The dough was wetter than the recipe allows. It would not hold its shape after the first fold and spread on the bench.

The water meter on the mixer was checked and found to be reading low. The meter was replaced the same day.

3. Disposition

The whole batch was written off. No loaves from batch 4471 were baked or sold.

A replacement batch was mixed after the meter was replaced and passed inspection.
