

Register of Field Safety Actions 2023-2025

Product Safety · 2026-01 · Revision 3

1. Register of recalls 2023-2025

This register lists field safety actions raised in the period, with the product affected and the date raised. It is maintained by Product Safety and reissued annually.

Reference	Raised	Product affected
R-2023-002	2023-02	Manifold block, MB series
R-2023-009	2023-06	Adapter, AD-40
R-2023-017	2023-11	Cover plate, CP-22
R-2024-004	2024-03	Gland assembly, GL series
R-2024-011	2024-07	Retainer, RT-18
R-2024-019	2024-10	Spacer set, SP series
R-2025-006	2025-01	Adapter, AD-40
R-2025-014	2025-02	BV-12 valve assembly
R-2025-021	2025-05	Manifold block, MB series
R-2025-028	2025-09	Cover plate, CP-22

Actions are listed by reference in the order raised. The register records the existence of an action and does not reproduce its content; the notice for each action is held separately under its own reference.

Period	Actions raised
2023	3
2024	3
2025	4

Actions raised before 2023 are held in the superseded register and are not listed here.

2. Closure status

Closure status is recorded against each action at the date of this revision. An action is closed when the return position is reconciled and the closure record is raised.

Reference	Status	Closed
R-2023-002	Closed	2023-09
R-2023-009	Closed	2024-01
R-2023-017	Closed	2024-04
R-2024-004	Closed	2024-11
R-2024-011	Closed	2025-02
R-2024-019	Closed	2025-04
R-2025-006	Closed	2025-08
R-2025-014	Open	—
R-2025-021	Closed	2025-12
R-2025-028	Closed	2026-01

Enquiries regarding the status of an action should be directed to Product Safety, quoting the reference.
